## IN THE COURTS.

Much of Interest in the Circuit  
and Smaller Tribunals.

This morning County Attorney Graves filed information as to the sanity of Mrs. Teresa Miller, of Jackson street, and she was ordered brought before the court tomorrow to be tried on a writ of lunatic inquiring.

Leslie Taylor was acquitted on a charge of assault and battery.

The time of the grand jury was extended one week. The jury returned by five or six indictments.

N. S. Allen was sworn in on the petit jury instead of Alonzo Miller, excused.

Elizabeth Meyer was granted a divorce from Henry Meyer, and granted the custody of their child.

A demurrer to the indictment against the city of Paducah was sustained, throwing it out of court.

The indictment was for creating and maintaining a nuisance by licensing Phil Stephens' saloon, on Washington street. At the time it was found there was a great deal of complaint against it. The evidence will be taken before the grand jury again, it is understood.

The "Gladstone" insurance case is still in jury.

The "Fannie Matthews" case was continued.

The case against Jesse Taylor, for stealing a bicycle, was taken up this afternoon.

COUNTY COURT.  
County court was in session this morning.

The will of the late Ed Schomus was admitted to probate, leaving his property to his children.

The will of the late F. S. Robinson was filed for probate and continued until tomorrow. He leaves all his property to his wife, to go to his three children after her death.

A number of settlements were made, but nothing else of an interesting nature was done this morning.

POLICE COURT.  
The smaller cases in the police court continuing were:

Mrs. Lizzie McReynolds, breach of the peace, \$1 and costs.

Clarence Mason, John Jordan and Ira Moore, drunk \$1 and costs.

The case against Ed Williams, for sealing a trunk, was continued until tomorrow.

JUSTICE EMERY'S COURT.  
This was Justice Emery's court day, and he had about 80 cases, consisting of attachments, garnishments, and such things. Court will be held all the afternoon in the Flourary warehouse, on Harrison street near Ninth.

SPECIAL MEETING

The members of the Commercial Club, of the city of Paducah, are requested to meet in special session at the city hall Tuesday evening, September 12, at 7:30 o'clock to consider methods of promoting the growth and trade of the city.

All citizens interested in the commercial progress of Paducah are requested to attend.

SICK WITH FEVER.  
PARIS, Sept. 11.—The Matin says typhoid fever has broken out in the house in which Guerin and associates are besieged. Paper says five of inmates are down with the disease.

On account of the report of typhoid fever being in Guerin's house, the authorities are disinfecting the neighborhood.

DOWN WITH A CRASH.  
COLUMBIA, S. C., Sept. 11.—Two hundred feet of trestle over Broad river, near Columbia, S. C., gave way under a train load of granite Saturday night, and the train fell 140 feet into the water. The engineer, the fireman and two other men lost their lives in the wreck.

YELLOW JACK GOES NORTH.

## FIGHTING FOR A NEW TRIAL

The Country Seems to Think the Verdict Will Be Set Aside and Justice Done.

## GERMANY NOT DISGRUNTLED

NEW YORK, Sept. 11.—The Rennes court-martial in announcing its conclusion that Dreyfus had held treasonable relations with a foreign government, found "extenuating circumstances," which, although not made plain in the finding, moved the court-martial to fix the penalty imposed upon Dreyfus at ten years' imprisonment in a "military fortress." As there is nothing on the He de Diabie answering the description of a "military fortress," the Fortress of Corte, in Corsica, has been selected.

Under the French law the sentence of the Rennes court is retroactive. Therefore, every day that Captain Dreyfus has spent in solitary confinement since his arrest, on October 15, 1894, will count as two days in wiping out the sentence imposed yesterday.

In other words, according to the general interpretation of the French law, Captain Dreyfus will have completed his sentence of ten years on October 15 next, which would mark an even five years' confinement from the day of his arrest in 1894, or ten years of ordinary imprisonment as prescribed by the Rennes court. If this view of the matter is correct, and it is generally believed that it is, Captain Dreyfus will be released in October.

Beyond this fact, however, there is the possibility that the court of Cassation may nullify the verdict of the Rennes court by declaring the proceeding irregular, and that it may order the release of Dreyfus at once, in view of the outrageous conduct of the prosecution.

President Loubet of France has the power, finally, to liberate the prisoner, but as he accepted the presidency on the distinct promise that he would abide by the decision of the second court-martial he may not feel called upon to interfere.

RENNES, Sept. 11.—Rennes is as quiet today as if there never had been the Dreyfus case. Most of the troops have gone, together with the police and visitors. Dreyfus continues calm and collected. He slept well last night.

PARIS, Sept. 11.—Everybody here feels a certain apprehension of the Dreyfus case for retrial of prisoner will be rejected. It is stated here, sharing this belief, is preparing a direct application to the court of Cassation and taking steps to find new facts necessary for revision.

LONDON, Sept. 11.—Esterhazy, in an interview today, says Dreyfus was justly condemned as the inevitable result of the evidence collected by Esterhazy. Esterhazy thinks the sentence was in accordance with an understanding with the government. The whole business, he says, was a farce, and he expects Dreyfus will soon be liberated.

BERLIN, Sept. 11.—The government says the Rennes verdict has absolutely no effect upon the Franco-German relations. The affair is finished forever as far as Germany is concerned.

PARIS, Sept. 11.—The Aurore, one of the leading pro-Dreyfus papers, says today that the Rennes judges did not mention the period of police surveillance of Dreyfus and conditions of residence after he had served his sentence. This omission, it says, is sufficient to annul the verdict.

The Petit Journal says the court revision, to which an appeal will be made, will not render the verdict as to the validity of the Rennes sentence before a month.

The Figaro asserts that the wife of a certain general visited the judges of the court-martial before the verdict was announced and attempted to persuade them to vote unanimously for conviction.

PARIS, Sept. 11.—It is stated that if Dreyfus is sent to the fortress at Corte Corsica he will be lodged as a first-class prisoner and allowed to receive visits from his wife and children.

LONDON, Sept. 11.—The Chronicle proposes that a national address of sympathy for Dreyfus be prepared and volunteers in obtaining signatures.

PARIS, Sept. 11.—Demaigre and Labori, of the Dreyfus counsel, are resting at the seashore. The revision documents will probably not reach Paris from Rennes before Wednesday. Meanwhile Dreyfus will remain at Rennes. He will not be allowed to attend the proceedings before the court of revision.

DROUTH IN CUBA.  
HAVANA, Sept. 11.—The drouth in Cuba is becoming serious. All the crops have suffered severely in the Province of Porto Principe. No rainfall there in ten months. The sugar yield is greatly diminished at Nuevas, the water being imported for irrigation purposes.

BELFAST, Sept. 11.—A public meeting was held here today at which prayer was offered to avert war with the Transvaal.

## NOT LIKE PEACE

England to Send Troops to South Africa.

There is Much Excitement Over This Fact and the Boers Prepare for War.

LONDON, Sept. 11.—The activity at the war department continues unabated. While the Transvaal situation has not changed the government will follow out to the end its project of sending sufficient forces to South Africa to protect its enormous interests there. Officers of admiralty left today for various coast towns to investigate the transportation facilities and to perfect arrangements for shipping infantry which will probably leave this week.

PRETORIA, Sept. 11.—Considerable excitement prevails at the prospect of the arrival at Cape Town of large bodies of British troops. Although generally admitted that the arrivals are to make up for the paucity of Johannesburg reports say fifty of British troops there since ten hundred people left town since Saturday. The proposition to remove the stock exchange to Cape Town is under consideration. The government is to be asked to start relief work to relieve exceptional distress. A telegram from Bloemfontein tells of distributing of arms and continued exodus. The Boers are still massing on the Natal frontier.

ALMOST KILLED.  
Close Call of Clarence Mason, of Mayfield.

A brakeman on a train of empty gravel cars saved the life of Clarence Mason, of Mayfield, last night. His name could not be learned.

Mason was lying across the track near City street, in a mad state when a train of thirty or forty empty trucks backed towards the union depot by the switch engine, came along.

The brakeman was standing near the edge of the first car, and saw the protrude form of the man in time to jump down, run to him and drag him off the track just as the wheels of the train passed.

A moment later and he would have been mashed into a pulp.

He was in such a condition that Officer Orr was called and a rested him. He was fined \$1 and costs in the police court this morning.

DIED FROM INJURIES.  
Daughter of Mr. J. N. Brown Succumbed to Contusion.

Isabella, the little two-year-old daughter of Mr. and Mrs. J. N. Brown, of 1003 Boyd street, died this morning from concussion of the heart, resulting from an accident on a street car August 7. She and her mother were aboard the car when one of the motors, near Sixth and Broadway, ran amuck and struck the one behind it quite violently. Both mother and child were bruised by the shock, but it was not thought that the injuries were serious. Mrs. Brown has recovered, but the little one lingered until death relieved her.

The funeral will take place tomorrow morning from the residence, burial at Oak Grove.

WANT FIDDLERS.  
Chicago Wants Them All There—Will Pay Expenses.

Mayor Lang this morning received a letter from Chicago, stating that all the names of old fiddlers in this section were desired. There is to be some sort of an entertainment there, and those in charge of it desire to give every fiddler who attends free transportation both ways, his board while he is in Chicago, and competitive for all the prizes.

All who have any interest in the affair are requested to leave their names with Mayor Lang.

CASE DISMISSED.  
There Was No Evidence Against Pete Bolan This Morning.

Peter Bolan, colored, was this morning made free in the police court. He was arrested by Officer Colyer Saturday night on a charge of stealing a \$40 watch from a desk at Sowell's mill, in Mechanicsburg, the watch belonging to Mr. C. H. King.

This morning when the case was called there was no evidence against the defendant and he was released.

## THE WEATHER.

Yesterday Was Quite Cool—Also Today.

The change in the weather has been most acceptable, and yesterday the highest degree of heat was 68, about 12 degrees lower than during most of last week. This morning the lowest point was 64. Yesterday's rainfall was .16 inch.

Observer Bornemann says that a great many people think Paducah is the hottest place in Kentucky, but that the following table, made Sept. 7th, one of the hottest days of the summer, shows that there were several places as warm as Paducah, and one, Greensburg, was two degrees hotter. The table is sent out by the government:

Hardtown,	104-70.
Bowling Green,	98-72.
Lexington,	96-70.
Eubank,	101-64.
Greensburg,	105-67.
Henderson,	98-74.
Hopkinsville,	103-70.
Lexington,	98-71.
Louisville,	102-74.
Mayfield,	103-67.
Montgomery,	97-68.
Owensboro,	101-72.
Paducah,	103-75.
Rickmond,	101-70.
Shelbyville,	103-69.
Saint John,	99-68.
Williamstown,	98-69.

The first figures are the highest and the second the lowest.

"A MAN OF MYSTERY."  
At Morton's Opera House Wednesday Night, Sept. 13.

There is some catchy singing and dancing in "A Man of Mystery." Mark E. Swan's new melodrama, which is to be seen in this city for the first time next Tuesday, Sept. 12. So powerful is the solemn interest of the play, that a little musical and terpsichorean relief is an absolute necessity. So we have a Bowery girl, known as Mott Street Moll, who spouts for us, and tells us, in a comical, tough way, about her own affairs and lively time she has generally in the slums of New York.

Miss Marie Leslie, who plays Mott Street Moll, is one of the cleverest comedienne on the stage, and her noble feet beat a rattling tattoo as she shakes out some fancy steps that fairly dazzle one. It is conceded by those that have seen "A Man of Mystery" that it is in every way a perfect stage entertainment. Seats will go on sale tomorrow morning at Van Culin's.

DEATH OF DR. BEELER.  
Died Saturday at His Home in Clinton, Ky.

Dr. George Beeler died Saturday afternoon at his home in Clinton, Ky., where he had lived since 1855. He was aged 89 years and a native of Louisville, where he had relatives. The funeral occurred yesterday.

Dr. Beeler is survived by a large family, composed of Mrs. J. H. Higbee, Mrs. J. M. Sammes, whose husband was manager of the horticultural department of the world's fair, Mrs. J. L. Moss, whose husband was for sixteen years clerk of Hickman county, Mrs. Jerry M. Porter, Miss Annie Beeler, Dr. Fred Beeler and Dr. Moorhead Beeler.

Dr. Beeler was well known in Paducah and all friends will regret his death.

STOLE HIS HAT.  
Daring Theft at the Union Depot Last Night.

"Where did you get that hat?" is what the police would find ask a tall mulatto who hung about the Union depot last night. They cannot find him, and it is well for the mulatto that they cannot.

When the east-bound train came in a Mr. Maize, of Livingston, Ky., was in the act of boarding the train when the mulatto snatched his hat off and ran. Mr. Maize saw that there was no way to get the hat, as the train had already started, so he preferred to lose his hat rather than time and ticket. The matter was reported to the officials, but no trace of the man or stolen could be found.

IS SPREADING.  
More Cases of Yellow Fever and Newly Infected Places.

NEW YORK, Sept. 11.—Yellow cases have developed at Port Tampa, Fla., and one in Jackson, Miss. One death has resulted at Port Tampa. The stricken at Port Tampa are said to be Key West refugees. Key West reports twenty-three new cases and two deaths. This makes a total of 177 cases there. Jacksonville, Fla., will establish a strict quarantine against the southern portion of the state.

## TOOK HIS LIFE

George T. Beard, the Pilot, Succides in Memphis.

Had Been Despondent of Late and Was in Search of a Position.

Marshal Collins this morning received a telegram announcing the suicide of Mr. George T. Beard, of 215 North Third street, this city, at Memphis last night. The news came as a great shock to his many friends here, who saw him last Thursday, when he went to Memphis, to look for a position. He had been despondent of late.

He was formerly clerk of the St. Louis and Tennessee River Packet company steamers, at one time of the P. D. Stacks, and was a brother to Messrs. Ed and Charles Beard, pilots on the steamer Edgar Cherry, now running from Danville to Savannah, Tenn.

Marshal Collins notified Mr. N. B. Beard, the young man's father, who wired that he would be down this evening.

Mr. Beard is well known in Paducah, having lived here for many years. He leaves a wife in St. Louis, three sisters and two brothers, in addition to his parents.

Mr. Beard will go down tonight and the funeral will probably take place here.

CUT A RELATIVE.  
Henry Williams in the Lockup for Using a Hatchet.

Henry Williams is the name of a man who is alleged to have chopped Dolly McCoy in the hand with a hatchet. The charge against him is a malicious cutting, and the woman, his sister-in-law, is charged with a breach of the peace. The cases were called by Judge Sanders this morning and continued until tomorrow, as the woman failed to show up.

Officer Crow searched for the McCoy girl this morning, but was informed that she had gone back to Graves county, where she came from.

SHOOTING SCRAPE SATURDAY.  
Will Briggs, known as "Nubs," was shot in the right foot by Ladd Diggs, on North Eleventh street, about 1 o'clock yesterday morning. The shooting occurred at Henry B. Land's house.

The trouble originated over a girl to whom Briggs was taking when Diggs came up. Briggs took her into the house to prevent Diggs from taking her, and the latter regarded it as an affront not to be tolerated. He fired two shots at Briggs when they met later. The police got Briggs, who was crippled. Dr. Rivers dressed the wound and he was locked up. The case was not tried today.

CRAP GAME RAIDED.  
Officers Gourteux and Hering raided a crap game Saturday night, and made several arrests. As a result the following were fined \$20 and costs by Judge Sanders this morning: Albert Sample, John Bartley, Will Newton and Eugene Thomas. Elmore Cooe was acquitted.

## A PERILOUS RIDE

Capt. J. W. Holmes and Son and Mr. Julian Greer and Family Had Close Call

## SAILBOAT UPSET YESTERDAY

All Were Thrown Into the Tennessee River—Clung to the Boat.

## RESCUED BY A FISHERMAN

Capt. J. W. Holmes, of the Water company, his son Oscar, and Mr. Julian Greer, the well known butcher, and wife and baby, and a young man named Washington, know what it is to be shipwrecked, although their experience was not of long duration. They have no desire to repeat it, however.

Mr. Holmes has a sailboat, the "Leroy," with a capacity of about twenty people. Yesterday afternoon he and his son, accompanied by the above named, started for a cruise up the Tennessee. The water was smooth and everything was calm. About 3 o'clock, however, there was a sudden squall and their boat, which had about 150 yards of canvas up, was upset before the sails could be reefed. Oscar Holmes was at the wheel.

The whole party was struggling in about forty feet of water, far from shore, but fortunately every one was cool headed and without fear, except of course, the baby, who was well taken care of by Mr. Greer and his wife. The boat was bottom upwards, and one by one they climbed to its broad surface, Mr. Greer helping up his wife and baby. Mr. Holmes and his son and the other man were soon likewise, and then they began seeking means of escape. They were likely to be overturned at any time by the wind and this did not conduce to their peace of mind.

Finally a fisherman from the island, who had seen the accident, went out and re-cued them. Mr. Greer and his wife went to the home of a man named Tucker, three miles from the city, and there got dry clothes for the child.

Mr. Holmes' boat was pumped out by the Artemus Lamb, and he came on to the city on her, little the worst for his thrilling experience.

## NEW BREWERY

Articles of Incorporation Filed Saturday Night.

The Capital Stock Is \$125,000—Work on the Plant to Begin at Once.

Articles of incorporation were filed Saturday night with County Clerk Chas. Graham for the Paducah Brewing association, with a capital stock of \$125,000.

The incorporators are: Mr. F. C. Shoenhauser, \$70,000; Mr. David Shoenhauser, a brother, \$50,000; Mr. F. C. Shoenhauser, Jr., \$4,400; and Messrs. W. F. Paxton and George A. Dams, of the city, \$300 each.

The affair will be one of the largest in the state, and Mr. Shoenhauser has ample fortune to back the enterprise. He has been in Paducah four times in the past two months, and was very favorably impressed with the city from the first. He resides in Chicago, as do his brother and son, and expects to have the contract for the new brewery let in two weeks.

Several sites the projectors have in mind, but have not yet selected the one they want. It is expected that about six months will be required to get the brewery running.

The towns of the state in the sixth class elect boards of trustees in November. These and other similar municipal contests will add considerably to the interest in the election.

If what the Brown papers and speakers say about Goebel is true, and what the Goebel papers and speakers say about Brown is true, there is on one thing left for an honest man to do and that is vote for Taylor.

Mr. William Goebel is now carrying on his campaign with him to draw a crowd after the election Mr. Goebel will have to carry Mr. Blackburn around to identify him, for even Mr. Goebel's friends won't recognize him.

Dewey's home-coming will be memorable from another point of view, for September, during which the Manila victory will again be celebrated, is the anniversary month of the battle of Lake Erie, which was won by Perry, September 10, 1813.

The Owensboro Messenger says Mr. Goebel readily answers all questions put to him on public matters. Perhaps he regards the charge of Capt. Stone of treachery as a private matter and this is why he makes no reply.

This same silence is no doubt what keeps the nominee from answering other charges. But public questions will open his mouth, says the O. M., and it might have added, if not all the time some times. The "king" is not so shrewd as the Messenger would have the public believe.

Jack Chinn, he of bowie knife fame, said in a recent interview: "Goebel is a noble man. I cannot describe my admiration for him; it is too deep for that. He will be elected by a large majority. The white men are going to run this state." And yet Col. Chinn and the Goebel leaders generally are moving heaven and earth to coax negroes into Democratic clubs. They say the "white men are going to run the state," and yet they boast that they will fill the places of anti-Goebel Democrats with negroes. What folly to think the colored voter will be caught by such chaff.

The Goebelites try to justify their election bill by saying it is a law to prevent the Republicans from stealing the state as they did in 1896. Then the people voted the Democrats out and the Republicans in over the fight on the money question, and the idea that therefore is a subterfuge. But what has the Democrats to say of the increased vote in this district when the vote stealing idea is up? It was an honest vote say they—and no doubt it was—but so was the vote elsewhere honest. The rogue that runs calling out to stop the thief is the man to watch and catch.

It is hard to conceive of the putting of party and disgraceful degradation of democracy until a person picks up the democratic papers and reads for himself what they have to say about their own leaders. If Wm. Goebel and John Young Brown are in reality the men they are painted by the press of their own party—what must the rank and file of honest men think of a party that would put up such men, taking the assertions of "good, loyal Democrats" to substantiate the presumption that everything said about them is true? Verily, "when thieves fall out" could not better be cited. The Democrats are their own accusers. People who want an honest administration and a trustworthy governor can't get them from the democratic party this year, according to the Democrats own admission.

Mr. Pettit, the Owensboro Populist who is fighting to get back into the Democratic party and to do so is making speeches for Goebel, says on his recent trip to the Purchase, according to the Owensboro Messenger, that he "was struck with the intense and all-pervading determination to elect Goebel and the scarcity of Brown men in that section." Mr. Pettit was no doubt also struck with the very odd reception he got in Paducah, where he did not have 20 callers, and the big crowd of 75 listeners he had in Bogon,

where he spoke. Mr. Pettit, like too many other speakers, talks through his hat off the stump as well as on it. Of all the visitors to this part of the state he undoubtedly got the coldest of welcomes and has the poorest idea as to the probable voting of the people.

The Benton Tribune comes to the Sun greatly improved under its new management, editorially especially. But the Tribune is for a compromise of the fight in the democratic ranks and therefore on a wild goose chase. And in saying this the Sun does not do so from an opposition party standpoint, but upon the idea that clean politics are the best for the state whether the state is under democratic or republican rule, for the public welfare demands this kind of political management. And this is possible now only through a decided rebuke to those who would rather run than not to rule.

In the centers of all civilization France has been roundly roasted the second conviction of Dreyfus. In this country many public actions have been held to take vengeance, such as burning the flag, boycotting the Paris exposition, while the press has freely indulged in the travesty upon justice.

At all unlikely that some of the European courts, Germany especially, may resent the reflections cast upon them during the trial of the evidence of the French generals, and what is now an incident of the young republic may become one touching upon war, while internecine trouble may ensue. France undoubtedly promises to reap much tribulation from this one act of injustice.

Mr. Blackburn's latest letter from Mr. Bryan—the one he mentioned at the Grahamville speaking as having received, but which he did not read—is credited with containing the assertion that he (Bryan) is willing to come to Kentucky and make speeches for him for senator, but will not advocate the election of Goebel from the stump. That letter, Mr. Blackburn, the people would like to read. Will you have it published just as it reads—give out to the press a fac simile copy—or will you withhold it upon the plea that it is a private letter? The statement is so largely believed that what the letter is said to contain is the truth. This is a statement strengthened by the return of Judge Tarvin to the Goebel fold.

Demagogue Goebel has been run to a hole again. This time it was the Lexington Leader which did the work. Under the caption "Will Goebel Explain?" the Leader says:

"Mr. Goebel has strongly denounced the present law governing the adoption and prices of school books, and says the people are charged several hundred thousand dollars a year too much for them. This is one of his main claims for support. The present law was passed in 1893. Mr. Goebel was in the state senate then. It passed the senate with only one vote against it—Senator Clark, of Logan county—why did Mr. Goebel allow a law that he now denounces so vigorously to pass? Why didn't he vote against it? Again Mr. Goebel voted against the only bill providing for cheaper school books that came to a vote in the senate during the last session of the general assembly. How can he now claim that he voted for a cheap school book bill, when the senate journal shows that he voted 'No' when said bill was on its passage?"

"STRAWS SHOW," ETC

Says the Somerset Paragon: "In the vicinity of Trimble P. O. are two Democrats about 75 years old, as good men as are found anywhere, who say positively that they will not support Goebel, and one of them has a son-in-law, also a Democrat, who will not, and who says he does not know of a Democrat down there that will vote for Goebel, and that is a strong Democratic section."

A Covington correspondent of the Louisville Post, contradicting statement of forming of a big Goebel club in Milldale, near Covington, said: "The facts of the case, however, are widely different. The loyal Milldale Democrats had become very much disgusted with Goebel, and the evening that the meeting was advertised a petition was started by them, asking all meeting, and over 150 names were signed to the petition. It is freely predicted that Mr. Goebel will not receive 50 votes out of a total of 500 of the Milldale precinct."

A Madisonville telegram of the 9th says: "If the election were held Monday, Hopkins county would give a comfortable majority for the republican ticket. This is the opinion of many who are familiar with the political situation here. The county is normally democratic by about 500 majority. The Democrats, with the aid of the populists, usually get

in the neighborhood of 3,000 votes. The Republicans muster about 2,000 votes. The Brown element claims from 500 to 800 votes. The Goebelites are said to be making a strong play for the populist vote. H. R. Bourland, one of the most influential populists in western Kentucky, and an eloquent speaker, received a letter from Senator Blackburn not long ago, asking him to speak for the Goebel ticket. He declined with thanks. Bourland worked beside Goebel in the constitutional convention and confided to some of his neighbors that he knew Goebel too well to speak for him. Brown and Goebel have both spoken here. The audience which greeted the two candidates are said to have been of about the same size. Judge Pratt's candidacy will, of course, bring great strength to the Republican ticket in this, his home county as well as in the entire western part of the state. He is known as the most popular man in Kentucky.

### MOTORMAN SHOCKED.

Motorman Terry Thompson, while in charge of a South Sixth street car Saturday night, was painfully injured as a result of a boy's prank. He saw a wire suspended from the trolley wire, and as his car came to it he seized it to throw it out of the way. It completed the circuit and he was thrown off the car, a hand being painfully bruised and a leg injured. Dr. Hessig dressed the injury and he is now resting easily.

## POPS TO RALLY.

They Expect to Have a Grand Pop-wow Here Next Month.

The populists are now preparing to have a big blow out here next month. The local members of the party are certain it will be a big success. The following dispatch sent out from headquarters explains the meeting and its purpose:

VIEW, Ky., Sept. 8.—The populists of the First congressional district will have a two days' grand rally at Paducah about October 1, and will have all of the state candidates on the populist ticket present and other good speakers. Exact date will be given later on. All bolters who are down on Goebelism are cordially invited.

## CHARGE REDUCED.

Gus Miller Said He Was Guilty of Immorality.

Delta Morton called on Judge Sanders last night and said that Gus Miller, colored, had committed rape on her. She swore out a warrant for rape, and Miller was arrested. He admitted to having been intimate with the woman, but said she consented.

This morning she failed to show up, and the court, learning that she was not of good character, believed Miller's story and fined him \$20 and costs for immorality and dismissed the rape charge.

## WHEEL BROKE OFF.

Peculiar Accident This Morning in the C. G. Yards.

The middle driving wheel on the right side of Engine 24, one of the big new locomotives purchased by the Illinois Central, snapped this morning without a moment's warning, in the yards as the engine was being taken out to carry away a fast freight. The axle broke short off at the driving road, and the only apparent cause was a flaw. The engine had made one or two trips since received from the works, and it is fortunate that the accident did not occur out on the road.

## FATHER AND SON.

A movement is on foot to get Colonel Tom Corbett, a staunch Goebel man, and his son, Hon. Hal Corbett, a Brownite, to divide time, and it is thought that in less than ten days they will mount the raging stump together and go for each other in good fashion. A great deal of pleasurable anticipation lies in the thought and the debate ought to attract more attention than the old fiddlers' contest.

## HAD A HORSE.

But That Didn't Keep Him From Stealing Other Things.

Fred Hawes is the name of a man from Livingston county who was before Judge Sanders this morning to answer for the petty sin of stealing a pocket book, some gloves and other things that he had no use for, from Lucy Moore, a West Court street woman.

She complained last night to Judge Sanders, and when Hawes was arrested, the stolen articles were found on him. Judge Sanders has a natural sympathy for Livingston county people, but he had very little for this man. He was held to answer in the sum of \$100.

He came in Saturday and has a fine horse and buggy here.

## SERIOUS MISTAKE.

The school board acted very unwisely in publishing to the world the fact that owing to the great amount of sickness and heat the school would not open on the regular day for opening. From these false, unthoughtful and unwarranted statements this city is getting the reputation of being very sickly. This is not the case and should not emanate from such an intelligent body as the school board ought to be. It seems for making blunders the present board cannot be surpassed. The weather is pleasant today and school should have commenced. An average intelligent board would have known that the hot weather could not continue, they would also have known that the majority of children are better off in school than running the streets in the sun. But the monstrosity on West Broadway was not completed—it will not be completed for some time to come—no doubt some of the present board had very little schooling and think fine buildings and short sessions will answer. The people of Paducah are paying \$55,000 a year for educational purposes and are entitled to get better results from this enormous expenditure than they have been getting for the last two years. Attending school in a \$100,000 building is not what they want. A good education is their desire. Something a majority of the present board seem devoid of.

## APPROACHING MARRIAGE.

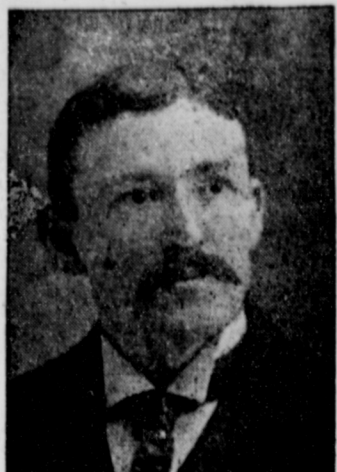

Miss Jennie Flournoy, of the county, and a most popular and pretty young lady, will be married to Mr. Boswell Jones, of St. Louis, next Thursday, according to reports. Both are well known and highly respected, the bride-to-be being a sister of Mr. Tom Flournoy, and the prospective groom a relative of Mr. Tom Boswell.

The natives in Samoa are said to be preparing to elect a supreme chief, on the presumption that the Berlin treaty is still in force.

Weather cool and pleasant. Thermometer 26 degrees lower than last Saturday.

The J. B. Richardson left for Cairo on time this morning with good freight business and a big trip of people.

Mr. John Holmes, while out with his sail boat yesterday afternoon with Mr. Julian Greer, wife and child and several others met a narrow escape from being drowned. When nearly opposite the tan yard in Tennessee river, while the wind was blowing very strong, the boat capsized and several would probably have been drowned, had it not been for the timely assistance of a skiff which was coming down the river.

The man in the skiff rowed hurriedly to the sail boat and rescued the entire party who were struggling in the water.

The J. B. Richardson departed on time for Cairo this morning with a big trip of people for Cairo and way points. The excursion trip to Cairo on the Richardson yesterday was a success financially. A boat 125 got on here, and 100 at Metropolis, who went to Wickliffe with the Metropolis baseball club to see the match game to be played there, but the game was declared off on account of a heavy rain, which set in about the time the club and friends arrived on the ball ground. The entire party returned to the boat as hastily as possible, but were in a deplorable plight, soaking wet and mud up to their knees. The ladies who were in the party got decidedly the worst of it. They were not only wet and muddy, but lost their "bloom of youth."

The Chattanooga's name will be changed, and named Ed Woolfolk, in honor of Mr. Ed Woolfolk, superintendent of the Paducah Manufacturing company.

The river is rising slowly. Weather cool with northwest wind.

Captain Langdon, of the dredge boat Innovator, and Captain W. A. Christian, one of the surveying government engineers, went down to Sharp's bar this morning on the Richardson. Captain Langdon says he will complete his work at Sharp's bar by next Wednesday.

The Bob Dudley left for Evansville this morning at 9:30 with good business.

One of the finest specimens of tow-boat architecture ever seen in American waters is the big steel W. R. King, now being completed at Howard's Jeffersonville, Ind., ship yards for Uncle Sam's service in the Mississippi river commission. She is steel-braced clear to the top of the pilot house, and her boiler deck is as solid underfoot as granite. Her engine room is 57 feet long by 38 wide, and her engineer will handle her machinery with steam shift gear from the center of this. She has six four-foot diamond steel boilers 42 inches in diameter and two foot stroke. Her shaft is 14 inches in diameter, 32 feet long and weighs with the cranks and flanges 47,000 pounds. Next to the engine room is an ac room for storing provisions for civil engineers and their men out in the field. Next to this forward is a large coal room, then comes the crew's room and then the boiler room. All of which are very spacious. On the boiler deck forward the first compartment is the forward cabin, where the boat's officers make their home. Then comes the kitchen and pantry, then the crew's dining room. Next is the after cabin, the home of the civil engineers traveling on the boat. Then comes a large sitting room fitted up in French plate glass, which enables the superior officers to see in all directions at all times. Then comes an open recess, bathroom and laundry and lavatory. She is fitted all over with electricity, steam steering gear, and every other device known, adapted to a very fine modern steamboat.

## HAVE TO HAVE STAMPS.

All Wagon Bonds Must Have a Fifty Cent Stamp.

Mayor Lang has received a letter from the government authorities at Washington, stating that 50-cent revenue stamps are required on all wagon bonds. Hence all who drive wagons must call and put on stamps, or their licenses will be invalid.

The city had first to put stamps on the police officers' official bond, then on the saloon bonds, and now on the wagon bonds. A movement is on foot to have all the bonds abolished, but it will likely not prevail, as it would leave the city and citizens not a particle of protection.
